EXPERIENCE

Full Stack Developer Intern

March–June 2026

Tech Studio Academy

- Built responsive frontend interfaces and server-side features with JavaScript, TypeScript, React, Node.js and Express.
- Implemented REST API endpoints and MongoDB-backed CRUD workflows for application data.
- Integrated and debugged data flow across interface, server, API and database layers using Git and GitHub.

SELECTED PROJECTS

TaskDuty

In development: a MongoDB-backed CRUD REST API and React frontend prototype. Client/API integration and deployment remain in progress.
